ALL CITY, COUNTY, STATE, FEDERAL AUTOMOTIVE EQUIPMENT			

Safety in Night driving in modern high speed autos, trucks, and buses, demands a powerful, concentrated, non-glare long-distance light beam that will penetrate beyond the range of head lights.

Safetylight . . . with its quarter mile beam thrown on right hand edge of road . . . is the answer. Its powerful beam cuts through opposing glare . . . prevents blinding . . . shows up every road hazard . . . eliminates possibility of out-driving one's lights or one's eyes.

Finger-tip pressure instantly turns the 160,000 or 170,000 C.P. Beam in any direction to spot street and road signs, house numbers, objects off the road, etc. It permits instant adjustment on winding roads.

It is Easily . . . Quickly . . . Installed on any car, truck, bus.

It is approved and recommended by leading car, truck and bus manufacturers.
