Attached is the 1955 Accessory Price Folder which includes all Accessories applicable to 1955 Rambler, Wasp and Hornet Models.

The Accessory Price Folder is available to Hudson Dealers on a gratis basis.

Description, model application, part number and suggested list price are shown for each item. Under the heading "Installation Time" should be added the local installed prices.

Every Hudson Retail Salesman will want to carry the Accessory Price Folder with the Car Price and Equipment Folder to have complete information for New Car Prospects.

Service Managers, Service Salesmen, Parts Managers and Counter Men should always have this Folder on their person, ready to show New Car Buyers and Service Customers the full line of Accessories available and their installed prices.

RECOMMENDATIONS FOR USE OF ACCESSORY FOLDER

1. The ACCESSORY FOLDER is a companion piece to all New Car Catalogs and literature. Wherever New Car Catalogs are displayed and used, the ACCESSORY FOLDER should also be displayed and used - in the New Car Showroom, the Service Receiving Desk and the Parts Counter.
2. Always give New Car Prospects ACCESSORY FOLDERS with New Car Catalogs.
3. When closing New Car Sales, the ACCESSORY FOLDER helps to sell the extra equipment that builds up the gross profit.
4. Mail ACCESSORY FOLDERS to New Car Buyers approximately ten days after the car is delivered. This will stimulate interest and you will get a second chance to sell Accessories at the 1,000 mile and 2,000 mile inspections.
5. Mail ACCESSORY FOLDERS to your Owners of 1953 and 1954 Model Hudsons. There is an excellent market for the Accessories on late model cars.

A profit making suggestion for your May Safety Campaign

"SELL GENUINE HUDSON FOG LAMPS"
AT THESE BARGAIN PRICES.

<u>GROUP NO.</u>	<u>PART NO.</u>	<u>DESCRIPTION</u>	<u>LIST-PRICE</u>	<u>DEALER NET</u>	<u>E.O.H.</u>
15.160	8990160	Fog Lamp, Pr.	5.75	3.35	.25
15.160	8990161	Fog Lamp, Inst. Kit	.45	.25	.05

ADAPTABLE TO 1955 MODEL RAMBLERS and priced for volume sales . . .
Hudson Fog Lamps are a "natural" to promote during the month of May.

Your Rambler customers will buy this outstanding bargain in "safety."

Equip Show Room Ramblers and Demonstrators with Fog Lamps so prospects will see the exceptional quality of this accessory and how beautifully it blends with the Rambler Styling.

Display Fog Lamps in your Service Department, and Parts Department, with the low retail price a part of each display.

Display in Show Room Windows with other accessories. "key-note" safe driving.

Don't overlook your customers who have already purchased a Rambler, they will want to know of this outstanding buy . . . a post card will do the trick.

REMEMBER, each Fog Lamp sale presents an opportunity to sell additional accessories for additional profits.

"PLACE YOUR ORDER NOW"

the supply of Hudson Fog Lamps is limited and at the unusually low prices they will go fast.

Accessory Merchandising Bulletin

Enclosed is your initial supply of the beautiful 1955 ACCESSORY FOLDER . . . a real sales-getter that will create the desire to buy Hudson Accessories.

The ACCESSORY FOLDER'S message is addressed to Hudson Prospects and Owners: "FOR YOUR MOTORING ENJOYMENT."

Accessories are grouped in four categories:

- (1) Listening Pleasure
- (2) Comfort and Convenience
- (3) Greater Beauty ... Luxury ... Splendor
- (4) Safer Driving

The beautiful illustrations are actual photographs. They show what each accessory does for the car and the driver and how it functions. The descriptions are brief, full of interesting understandable information to make your Customers want to buy these accessories.

This three color ACCESSORY FOLDER is an excellent mailing piece to your Late Model Owners. It will let your prospects see at a glance the impressive accessories you have available. Attached is a list of recommendations to help you use the ACCESSORY FOLDER to best advantage.

Additional quantities of FOLDERS are available through your Zone Office. Place your request with the Zone Manager and shipment will be made direct from Detroit.

TRAILER

HITCH

SUGGESTED
INSTRUCTIONS
ATTACHED

SOURCE OF
SUPPLY

ORDER BLANK
ATTACHED

More and more car owners are installing trailer hitches to haul utility as well as house trailers although the modern motor car is not specifically designed for this purpose.

Attached is SUGGESTED INSTRUCTIONS FOR TRAILER HITCHES for Hudson Wasp and Hornet Models which include advice regarding the abnormal problems due to hauling house trailers. They should be followed explicitly by all owners using this equipment. We recommend the instructions for serious reading by all Dealer personnel.

The Draw-Tite Company, Belleville, Michigan have available trailer hitches for application on all Hudson Models 1948 thru 1955.

A Dealer Order Blank is attached for ordering trailer hitches from the manufacturer. The order is placed direct with Draw-Tite Company and shipment made on a C.O.D. basis.

Additional copies of the instructions and order blanks are available on request to your Zone Office.

American Motors Corporation

C. C. MC KELLAR

MANAGER
PARTS & ACCESSORY MERCHANDISING

SUGGESTED INSTRUCTIONS FOR HOUSE TRAILER EQUIPMENT

HUDSON WASP AND HORNET MODELS

CAUTION

It should be recognized by trailer owners that all makes of cars are designed and intended as a passenger conveyance. A trailer cannot be towed behind a passenger car without having some affect on safe operation., dependability and economy. Although the Hudson car will pull a trailer as satisfactorily as other makes of passenger cars, maximum efficiency will be derived through the use of proper equipment and by avoiding overloads and other abusive operation. When operating on highways, allowance must be made for the additional weight and bulk of the trailer, and driving habits must be altered accordingly.

AXLE OVERLOAD

It is imperative to avoid rear axle overload. Loads exceeding the design limits are likely to sacrifice durability. To determine axle load, weigh the car when loaded as it is to operate in actual service. Place the rear tires on the scale, and divide by two to obtain individual rear tire loading.

To assist in carrying loads up to design limits, the tire size and tire pressure as given in the following table should be strictly adhered to for either tube or tubeless tires. If the following table determines that the standard tires are overloaded, it will be necessary to use oversize or heavier capacity tires.

MODEL	TIRE SIZE	PLY RATING	LOADS AT VARIOUS INFLATIONS			
			24	26	28	30
Wasp	6:70-15	4	925			
Wasp	6:70-15	6	925	970	1015	1055
Hornet	7:10-15	4	990			
Hornet	7:10-15	6	990	1040	1085	1130

NOTE: PRESSURES IN EXCESS OF 24 POUNDS (cold check for 4 ply tires or 30 pounds for 6 ply tires) NOT RECOMENDED.

SPRINGS AND SHOCK ABSORBERS

Proper trim dimensions and suitable riding qualities are important. These can usually be obtained when trailer is attached by using heavy duty rear springs and shock absorbers. Hudson dealers have parts available for this application.

Important

When heavy duty rear shock absorbers are installed, it is also necessary that heavy duty shock absorbers be installed on the front of the car.
